

Atrax Cabin Bag Check Unit

Fast, simple and accurate control of cabin bags

Don't waste time with problems caused by oversized cabin baggage. Help passengers get their carry-on baggage size and weight right, with Atrax Group's cost-effective cabin bag check unit.

Atrax's sleek, well-designed and robust courtesy digital cabin bag check unit will enhance your airport environment and save your airport operations both time and money.

Why you need the Atrax Cabin Bag Check Unit in your airport:

- Help passengers quickly ensure their cabin baggage meets airline requirements prior to check-in.
- Fixed dimension bag check cage eliminates size disputes. Customisable to airline/airport requirements.
- Large, easy to read weight display with fast, accurate weighing.
- Can be used at security check and boarding gates to identify non-compliant carry-on bags.
- Is attractive and durable, yet lightweight and easy to move around.
- Battery powered - no hazardous leads or electrical outlet constraints.

Atrax - The proven choice.

Atrax Group is the world leader in the design, manufacture, integration and support of a full range of industrial weighing, measurement and related control systems for the Airport and Logistics industries. Over three million people in more than 165 countries and territories use an Atrax scale or system every day. ISO accredited for quality, safety and the environment.

Features

- Go/No Go bag size determination.
- Centrally located easy to read weight display.
- Stainless steel tubular bag cage and base plate.
- Extruded aluminium frame with acrylic front and rear panels.
- Steel base frame with ABS overlay.
- Battery life indicator shows when to change the standard 'off-the-shelf' batteries. Battery cover is designed to make inserting and replacing batteries very easy.
- Single high-precision rugged load cell.
- A convenient handle plus two large nylon wheels at rear facilitate 'tilt and wheel' movement, making the unit easy to move - even up stairs.

Why buy from Atrax Group?

- With multiple projects completed in over 800 airports worldwide, Atrax Group understands the airport environment and your requirements better than anyone.
- Modern design, manufactured from durable materials.
- Cost-effective pricing.
- Full warranty support provided.

Technical specifications

Capabilities

- Size check and weighing in one simple operation
- Bag weight of up to 40kg in 0.1kg increments
- Overload capacity of 100kg

Display

- 7-segment monochrome LCD display panel
- 205mm wide x 120mm high
- Stable weight reading achieved in less than 2 seconds
- Display resolution of 0.1kg

Power

- Operates with 4 standard D cell alkaline batteries
- Battery life indicator
- Smart circuitry senses when the unit is not in use and enters standby mode to conserve battery life
- Greater than 100,000 bag weighing operations, or up to a year on standby, per set of batteries

Weight and dimensions

- Overall height: 1292mm
- Base front-to-back depth: 590mm
- Overall width: 674mm
- Weight: 38kg
- Standard bag cage for maximum bag size: 23cm (D) x 36cm (H) x 56cm (L) - customisable to airline requirements

**Note: Atrax's continuous improvement program may cause changes to this specification.*

Additional benefits

- Stable weight reading in under 2 seconds means reduced processing time.
- Helps with on-time flight departure by reducing problems of passengers boarding with oversize/overweight carry-on baggage.
- Early detection of non-compliant carry-on baggage allows normal checked baggage process to be used, minimising airport staff rushing bags from departure gate to aircraft hold.
- Maximum exposure - large front and back panels give you plenty of space to incorporate signage to direct passengers, or branding/promotional messaging for airports and airlines.
- The strong, stable, and lightweight unit has wheels and is easy to move and reposition for changes in passenger queuing layouts.
- Easily redeployed to other areas, allowing versatile use.
- A cost-effective option for airports looking to proactively enhance service to airlines.
